

Product Group		Cationic monomer			
Chemical Name		3-(Methacrylamido)propyltrimethylammonium chloride	2-(Methacryloyloxy)ethyltrimethylammonium chloride (Prototype)	2-(Methacryloyloxy)ethyltrimethylammonium methylsulfate (Prototype)	3-(Methacrylamido)propyltrimethylammonium methylsulfate (Prototype)
Chemical name abbreviation		MAPTAC	MOETAC	MOETAS	MAPTAS
Structural formula					
Molecular formula Molecular weight		C10H21N2OCl 220.7	C9H18NO2Cl 207.7	C10H21NO6S 283.3	C11H24N2O5S 296.4
Registry information	ENCS	2-3196	2-1051	2-1051	2-3195/2-1673
	EINECS	257-182-1	225-733-5	229-995-1	257-207-6
Specification		White powder Assay min 98% Moisture max 2% ※a few grades of quality	White Powder Assay min 98% (Provisional)	White Powder Assay min 98% (Provisional)	White Powder Assay min 98% (Provisional)
Style of packing		20kg Craft paper bag(Aluminum laminate interior)	Please contact us if you'd like further information.	Please contact us if you'd like further information.	Please contact us if you'd like further information.
HS code		2923.9	2923.9	2923.9	2923.9
Use		Reforming agent for resin, Cationic agent	Reforming agent for resin, Cationic agent	Reforming agent for resin, Cationic agent	Reforming agent for resin, Cationic agent
Stock status		In-stock	Please contact us if you'd like further information.	Please contact us if you'd like further information.	Please contact us if you'd like further information.
